

EMILIANO JUÁREZ

Mechanical Engineer | Mechanical Design | Automation & Manufacturing

Puebla, México | 2229029084 | emilianojuarez1904@gmail.com

PROFESSIONAL SUMMARY

Mechanical Engineer with experience in mechanical design, manufacturing, and process optimization within injection molding environments. Skilled in 3D CAD modeling, technical drawings, and development of manufacturing systems and layouts. Experience in simulation, validation, and performance analysis (OEE, scrap, cycle time). Strong background in automation support, APQP, engineering changes, and cross-functional collaboration.

CORE SKILLS

- 3D CAD Modeling (SolidWorks, AutoCAD, Fusion 360)
- Mechanical Design & Assemblies
- Automation Cells & Manufacturing Systems
- Technical Drawings & GD&T Interpretation
- Process Simulation & Validation
- OEE, Scrap & Cycle Time Analysis
- APQP & Engineering Change Management
- Manufacturing Process Optimization
- Pneumatic Systems
- Plant Layout Design
- SAP (Basic)
- Advanced Excel & Data Analysis

PROFESSIONAL EXPERIENCE

Groupe Plastivaloire – Puebla, México

Process Engineer | Mar 2026 – Present

- Performed scrap, OEE, and cycle time analysis to identify and implement process improvements.
- Led initiatives focused on scrap reduction and manufacturing efficiency.
- Executed line balancing and machine capacity analysis based on production demand.
- Supported validation and performance improvement of manufacturing processes.

- Collaborated with cross-functional teams (production, quality, engineering) to improve system performance.

Engineering Intern | Jun 2025 – Mar 2026

- Developed full plant layouts for Puebla and San Luis Potosí facilities.
- Created process flow diagrams and manufacturing documentation.
- Supported APQP activities and engineering change management (ECN/ECR).
- Executed and validated engineering change trials.
- Supported design and documentation of mechanical components and manufacturing systems.
- Participated in traceability system implementation (RFID).

EDUCATION

Mechanical Engineering – Tecnológico de Monterrey, Campus Puebla

Aug 2022 – Jun 2026

TECHNICAL TOOLS

- SolidWorks, AutoCAD, Fusion 360, MasterCAM
- Minitab, Excel (Advanced)
- FluidSIM
- SAP (Basic)

LANGUAGES

- Spanish: Native
- English: C1 (Advanced)
- German: A1 (Basic)
